

MEASURE YOUR FEET - For the best fit, measure your feet at the end of the day.

1. Get a piece of paper that is larger than your feet, pen or pencil, tape and a ruler.
2. Wear the type of socks you would typically be wearing with your new shoes.
3. Do not wear shoes.
4. Measure both feet, as right and left sizes may be different, and use the longer measurement.

STEP 1

Place a piece of paper down on a flat, non-carpeted floor.

STEP 2

Stand on the paper, and slightly bend your knees.

STEP 3

Draw a horizontal line straight across the page where your longest toe ends.

STEP 4

Draw a horizontal line straight across the page where your heel bone ends.

STEP 5

Measure the length between the two lines. The length will determine your shoe size.

STEP 6

Find your size on the Shoe Size Conversion Chart below.

NOTE

- Wide feet: choose half a size to a full size up for comfort
- We recommend choosing half a size up for pointed-toes shoes
- Leather shoes will stretch overtime
- Monogram canvas shoes will not stretch overtime

MEN'S SHOE SIZE CONVERSION CHART

Inches	CM	US / Canada	Europe	FERI
10 1/2	26.7	8	42	8
10 3/4	27.3	8.5	42.5	8.5
10 15/16	27.8	9	43	9
11 1/8	28.3	9.5	43.5	9.5
11 3/16	28.4	10	44	10
11 1/2	29.2	10.5	44.5	10.5
11 5/8	29.5	11	45	11
11 3/4	29.8	11.5	45.5	11.5
11 7/8	30.2	12	46	12
12 1/8	30.8	12.5	46.5	12.5
